# **SAFETY DATA SHEET**

SOLVER AQUA TRIM SATIN WHITE BASE 44301239

## Section 1. Identification

| Product identifier   | : SOLVER AQUA TRIM SATIN<br>WHITE BASE  |
|--|---|
| Product code   | : 44301239  |
| Product type   | : Liquid.   |
| Relevant identified uses of                                | of the substance or mixture and uses advised against  |
| Material uses  | : Paint or paint related material.  |
| Supplier's details   | : VALSPAR PAINT (AUSTRALIA) PTY LTD<br>L3, 2 Burbank Place,<br>Norwest, NSW, 2153<br>wattyl@wattyl.com.au |
| Emergency telephone<br>number (with hours of<br>operation) | : +(61)290372994<br>(Available 24 hrs/ 7 days)  |

# Section 2. Hazard(s) identification

**Classification of the** substance or mixture : Not classified.

| GHS label elements          |   |  |
|-----------------------------|---|--|
| Signal word                 | : | No signal word.  |
| Hazard statements           | : | No known significant effects or critical hazards.  |
| Precautionary statements    |   |  |
| General                     | : | Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.                  |
| Prevention                  | : | Not applicable.  |
| Response                    | : | Not applicable.  |
| Storage                     | : | Not applicable.  |
| Disposal                    | : | Not applicable.  |
| Supplemental label elements | : | Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage. |

Other hazards which do not : None known. result in classification

# Section 3. Composition and ingredient information

| Substance/mixture             | : Mixture        |
|-------------------------------|------------------|
| Other means of identification | : Not available. |

#### **CAS number/other identifiers**

Not available.

# Section 3. Composition and ingredient information

| Ingredient name  | % (w/w) | CAS number |
|------------------|---------|------------|
| Propylene Glycol | <10%    | 57-55-6    |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
|--------------|---|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.  |
| Skin contact | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion    | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effe |   |     |
|-----------------------------|---|-----|
| Eye contact                 | No known significant effects or critical hazards.   |     |
| Inhalation                  | No known significant effects or critical hazards.   |     |
| Skin contact                | No known significant effects or critical hazards.   |     |
| Ingestion                   | No known significant effects or critical hazards.   |     |
| Over-exposure signs/sym     | <u>s</u>  |     |
| Eye contact                 | No specific data.   |     |
| Inhalation                  | No specific data.   |     |
| Skin contact                | No specific data.   |     |
| Ingestion                   | No specific data.   |     |
| Indication of immediate me  | attention and special treatment needed, if necessary  |     |
| Notes to physician          | Treat symptomatically. Contact poison treatment specialist immediately if la<br>quantities have been ingested or inhaled. | rge |
| Specific treatments         | No specific treatment.  |     |
| Protection of first-aiders  | No action shall be taken involving any personal risk or without suitable trainir  | ng. |

#### See toxicological information (Section 11)

## Section 5. Firefighting measures

#### Extinguishing media

| Suitable extinguishing media   | : Use an extinguishing agent suitable for the surrounding fire. |
|--------------------------------|---|
| Unsuitable extinguishing media | : None known.   |

# Section 5. Firefighting measures

| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
|--|---|
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul> |
| Hazchem code                                   | : Not applicable.   |

# Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |   |   |
|---|---|---|
| For non-emergency<br>personnel                                      | ate surrounding areas. Keep un  | personal risk or without suitable training.<br>necessary and unprotected personnel from<br>n spilt material. Put on appropriate personal  |
| For emergency responders  |   | al with the spillage, take note of any<br>d unsuitable materials. See also the<br>sonnel".  |
| Environmental precautions   | ewers. Inform the relevant author<br>on (sewers, waterways, soil or ai  | noff and contact with soil, waterways, drains<br>prities if the product has caused environmental<br>r).   |
| Methods and material for cor  | and cleaning up   |   |
| Small spill   | ater-soluble. Alternatively, or if  | ers from spill area. Dilute with water and mop<br>water-insoluble, absorb with an inert dry<br>aste disposal container. Dispose of via a  |
| Large spill   | courses, basements or confined<br>ent plant or proceed as follows.<br>Istible, absorbent material e.g. s<br>ace in container for disposal acc | ers from spill area. Prevent entry into sewers,<br>areas. Wash spillages into an effluent<br>Contain and collect spillage with non-<br>and, earth, vermiculite or diatomaceous earth<br>ording to local regulations (see Section 13).<br>sal contractor. Note: see Section 1 for<br>ection 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe handling          | 1 |   |
|--|---|---|
| Protective measures                    | 1 | Put on appropriate personal protective equipment (see Section 8).   |
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

3/10

# Section 7. Handling and storage

| Conditions for safe storage, |  |
|------------------------------|--|
| including any                | from direct sunlight in a dry, cool and well-ventilated area, away from incompatible |
| incompatibilities            | materials (see Section 10) and food and drink. Keep container tightly closed and     |
|                              | sealed until ready for use. Containers that have been opened must be carefully       |
|                              | resealed and kept upright to prevent leakage. Do not store in unlabelled containers. |
|                              | Use appropriate containment to avoid environmental contamination. See Section 10     |
|                              | for incompatible materials before handling or use. Avoid release to the environment. |

# Section 8. Exposure controls and personal protection

#### Control parameters

Occupational exposure limits

| Ingredient name  | Exposure limits   |
|------------------|---|
| Propylene Glycol | Safe Work Australia (Australia, 12/2019).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Particulate<br>TWA: 150 ppm 8 hours. Form: Vapor and<br>particulates<br>TWA: 474 mg/m <sup>3</sup> 8 hours. Form: Vapor<br>and particulates |

| Biological limit values          | :   | There is no biological limit allocated.   |
|----------------------------------|-----|---|
| Appropriate engineering controls | :   | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Environmental exposure controls  | :   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.   |
| Individual protection measu      | res |   |
| Hygiene measures                 | :   | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |
| Eye/face protection              | :   | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection                  |     |   |
| Hand protection                  | -   | Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary.   |
| Body protection                  | :   | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Other skin protection            | :   | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection           | :   | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |

# Section 9. Physical and chemical properties

#### **Appearance**

| Appearance                                   |   |   |
|--|---|---|
| Physical state                               | : | Liquid.   |
| Colour                                       | : | Not available.  |
| Odour  | : | Not available.  |
| Odour threshold                              | : | Not available.  |
| рН   | : | 8.5   |
| Melting point                                | : | Not available.  |
| Boiling point                                | : | 100°C (212°F)   |
| Flash point                                  | : | Closed cup: 103°C (217.4°F) [Pensky-Martens Closed Cup] |
| Evaporation rate                             | : | 0.09 (butyl acetate = 1)                                |
| Flammability (solid, gas)                    | : | Not available.  |
| Lower and upper explosive (flammable) limits | : | Lower: 0.6%<br>Upper: 12.5%                             |
| Vapour pressure                              | : | 2.3 kPa (17.5 mm Hg) [at 20°C]                          |
| Vapour density                               | : | 1 [Air = 1]   |
| Relative density                             | : | 1.22  |
| Solubility                                   | : | Not available.  |
| Partition coefficient: n-<br>octanol/water   | 1 | Not available.  |
| Auto-ignition temperature                    | : | Not available.  |
| Decomposition temperature                    | : | Not available.  |
| Viscosity                                    | : | Kinematic (40°C (104°F)): >0.205 cm²/s (>20.5 cSt)      |
| Aerosol product                              |   |   |
| Heat of combustion                           | : | 2.236 kJ/g  |
|  |   |   |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

# Section 11. Toxicological information

#### Information on toxicological effects

#### **Acute toxicity**

| Product/ingredient name | Result                   | Species       | Dose                   | Exposure |

# Section 13. Disposal considerations

#### **Disposal methods**

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

#### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become make themselves aware of and understand the data contained in this SDS and any hazards that may be associated with the product. This information is provided in good faith and believed to be accurate as of the effective date mentioned herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can may change later the composition, hazards and risks of the product. Products shall should not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to, the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for the use of the product are not under the manufacturer's control of the manufacturer; the customer/buyer/user is responsible to for determine determining the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS, without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be held responsible for SDSs obtained from any other source.
